

GROUP TEXT CARD 8A1

CORROSIVE

NAME*	Polyamine Number 5 Corrosive (Cyclohexylamine and Trimethylhexamethylenediamines Solution)	UN NUMBER	HAZCHEM
TRADE NAME**	HARDENER LC226	UN 2735	3X

* As described in the Australian Code for the Transport of Dangerous Goods by Road and Rail.

** Trade or common name on label.

C796 12/03

EMERGENCY CONTACTS

POLICE OR FIRE BRIGADE: DIAL 000 - IF INEFFECTIVE DIAL 1100 (EXCHANGE)

ORGANISATION	LOCATION	TELEPHONE	CONTACT
Lumascope Lighting Industries Pty Ltd	38-44 Enterprise Street Cleveland, QLD, 4163	(07) 3286 2299 (07) 3286 6533 EXT. 3	Brad Whitaker

HAZARDS

FIRE	May burn but will not ignite readily. Heat produces toxic and corrosive vapours. Heat may cause violent rupture of containers.
HEALTH	May be harmful or fatal if swallowed, inhaled or absorbed through the skin. Burns or irritates eyes, skin and respiratory tract. Effects may be delayed.
OTHER	May ignite combustible materials. May react with water to produce toxic or flammable gases. Fumes may form an explosive mixture with air.

EMERGENCY PROCEDURES

IF THIS HAPPENS	DO THIS
FOR ALL EMERGENCIES	Shut off engine and electrical equipment and leave off. No smoking or naked lights within 50 meters. Move people from immediate area - keep upwind. Consider initial evacuation distance of 100 meters in all directions. Stop leak if safe to do so. Send messenger to notify brigade and police. Tell them location, material, quantity, UN number and emergency contact. Indicate condition of vehicle and damage or injuries observed. Warn other traffic.
TANKER/VEHICLE ACCIDENT	Carry out action under FOR ALL EMERGENCIES. Check for spills or leaks. Do not move vehicle if movement could cause increased spillage.

EMERGENCY PROCEDURES

IF THIS HAPPENS	DO THIS
<p>SPILL OR LEAK</p>	<p>Carry out action under FOR ALL EMERGENCIES. Avoid breathing dust vapors and contact with skin and eyes. Wear self-contained breathing apparatus and full protective clothing. Stop leak if safe to do so. For large spills, or tank rupture, consider further evacuation to 200 meters in all directions. Prevent spilled material from spreading or entering drains by banking with sand or earth. If available, consider using water spray to disperse vapor. Absorb small spills (liquid) with dry sand or other non-combustible material for later disposal. Wash away residues with water.</p>
<p>FIRE (If fire is confined to vehicle only, refer to vehicle fire EPG)</p>	<p>Carry out action under FOR ALL EMERGENCIES. Avoid breathing dust vapors and contact with skin and eyes. Wear self-contained breathing apparatus and full protective clothing. For minor fire use extinguisher provided (trained personnel). For HAZCHEM 4 use dry chemical. For HAZCHEM 3 use foam or dry chemical. For HAZCHEM 2 use water spray or fog. For HAZCHEM 1 use water jets. Use water delivered as a fine spray to cool adjacent area. Contain run-off by banking with sand or earth. Where possible and safe to do so, remove cool containers from the path of fire. Do not approach hot or fire damaged containers. Cool unruptured containers with water.</p>

FIRST AID

<p>INHALED</p>	<p>Remove to fresh air, lay down and rest. If not breathing, apply resuscitation. Keep patient warm. Transport to hospital or doctor.</p>
<p>EYES</p>	<p>Immediately hold eyes open and wash continuously with water for at least 15 minutes. Transport to hospital or doctor.</p>
<p>SKIN</p>	<p>Quickly but gently wipe material off skin. Immediately remove all contaminated clothing, including footwear. Wash affected areas thoroughly with water and soap for at least 15 minutes. Transport to hospital or doctor.</p>
<p>SWALLOWED</p>	<p>Do not induce vomiting. Rinse out mouth with plenty of water and if conscious induce copious drinking of water or milk. Immediately transport to hospital or doctor.</p>
<p>BURNS</p>	<p>Immerse affected area in cold water for 10 to 15 minutes. Bandage lightly with sterile dressing. Treat for shock if required. Transport to hospital or doctor.</p>
